

Donating Via Venmo

Username: @Phillypaws

We're now accepting Mutt Strut fundraising donations via Venmo, so it's easier than ever for friends and family to support your fundraising efforts! Venmo does not automatically integrate with our donor system, so **Venmo donations are being individually added to your page by a staff member. Because of this, there are a few important things to keep in mind:**

- In order for a Venmo donation to be added to your page, donors must include the name of your fundraising page in the description (*example: "For [your full name]'s Mutt Strut page"*).
- Donations will be entered weekly by staff, so it may take up to 7 days for them to appear.
- Because matching gifts can only be applied to your page through our online portal, Venmo donations unfortunately can't be matched.
